Sloan's Cintment. We would call attention to the advertisement in our columns, of this popular and truly Great Remedy. We have witnessed its extraordinary virtue in a varity of obstinate cases, and heard of many cures it has performed, that really appear incredible, were they not testified to by persons of veracity. For obstinate old sores of every kind, fresh wounds, barns, corns, sore nipples or broken breasts, it has no equal. And for piles it is warranted to cure every case, no matter of how lorg standing, or how horribly the patient may be affi cled. See Sloan's advertisement in another column.

It would hardly do for any one to have the temerity nowa-days to question the excellence of Dr. Ho fland's German Bitters, which are prepared by Dr. C. M. Jackson, In cases of dyspepsia, liver complant, and derang-ment of the digestive organs, their many virtues have long since been made plainly apparent. They parge from the system the morbid humo s which retard their natural functions, and bring paleness to the check and suffering to the brow. They banish those clogs upon happiness, and restore the system to high health.

"It is an every day occurrence, to meet with persons who 'feel no interest' in the subject of religion, and who, on this ground, excuse themselves from giving their attention to it. I have in very many instances wanted some suitable book to place in the hands of persons of this description. "Within a certain broad and comprehensive sphere, Baxter's Call, Alleine's Alarm, Daddridge's Ries and Progress, or Halyburton's Grest Concern of Salvation, might answer the purpose. But with a great number of individuals, not one of these admirable works could be used with any hope of its being read. of its being read.

Important to Consumers of White Lead.

EBAUD IN WEIGHT. PERNSYLVANIA WHITE LEAD WORKS, I Pittsburgh, June, 1854. | THE attention of consumers of White Lead is called the face that a large portion of that article ground in oil is now put up in kegs purposting to contain 25 and 50 pounds each, whereas there is no allowance made for the weight of the kegs, and the consumer is defrauded to that amount. The deception can easily be detected by weighing the different manufacturers' brands offered for sale. During the past year we have made extensive additions to our buildings, machinery and stock, for the manufacture of large quantities of White Lead, to enable us to supply the demand for our article. We guaranty all Lead bearing on brand to be strictly pure, and entirely free from any adulteration whatever, and not exceeded for fineness and whiteness by any made in the United States.

By this process success is certain if the party afflicted obey the directions, which requires but a limited time and rdinary application.

There is nothing disagreeable in the plan, and the inventor has received the highest testimonials from distinguished medical men and scientific institutions.

The Franklin Institue of Philadelphia, after a close and scrutinizing examination of this invention, on reference to their Committee of Science and the Arts, conferred on the inventor the highest premium in their gift, as well as the Sout Legacy premium, which is only given to very extraor dinary and meritorious discoveries—(advertisement being first made of their intention for hree month, at the expense of the corporation of Philadelphia, that competitors may be The Pennsylvania State Fair also awarded an extra dip-

Professors Valentine Mott and Parker, of New York, as well as numbers of others in that city, concur with Professor Dunglison in his opinion. Many parents have children on whom they have spent hundreds, and in some instances, thousands of dollars, among elecutionists, endeavoring to have them broken of this habit, and all of no avail by this system, and but ordinary practice and a determination on the part of the person to succeed, success will in every instance be that to

The inventor is aware of the numerous attempts that have been made for many years to cure this defect, and the annovance stamerers have been subject to. He wishes such to understand that he has spent diving the past thirty years nearly a fortune among those who have attempted to remove this difficulty, and all of no avail. Being determined to discover such mesos, if within his reach, he has closely studied the matter in all its phases, cured himself perfectly and readily; his invention was then patented, and in every instance where he has exhibited it to scientific men and institutions of lear ing, he has carried off the highest prize.
